Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am disgusted and disappointed at this entire effort. What has happened to the freedoms our country was founded on, not to mention Christian morals and ethics?! I, personally, need to use the compounded natural hormones and vitamin/mineral supplements supplied by Womens Health AMERICA (appropriate name) because they drastically reduce my symptoms, due to Menopause and Fibromyalgia. Do not classify me in a ^{convenient} convenient "pigeon hole". I've had much trouble with your "one size fits all" prescriptions (Estrogen, Progesterone, etc.) I am an individual with individual needs, not like every other Jane Doe who accepts "no choice" attitude.

I am against your M.O.U. and government controls, and ask that you STOP and reevaluate.

Thank you!
